PROFILE

BCA (Hons.) Data Science student with hands-on experience as a Data Analyst and Web Designer. Strong technical foundation in Python, SQL, Power BI and Microsoft tools, with the ability to work on real-world data analytics and web development projects. Passionate about applying analytical and problem-solving skills to derive meaningful business insights and support data-driven decision-making. Seeking opportunities in Data Analytics and BI Development.

WORK EXPERIENCE

IGT Solutions DEC 2024- MAY 2025

Data Analyst

- Applied data analysis techniques to solve business problems using SQL, Excel and Power BI.
- Performed exploratory data analysis (EDA) to support business strategy.
- Generated actionable insights for operational improvements.
- Strengthened analytical foundations through real-world exposure.

Tax Pillars 2025

Web Designer

- Designed front-end layouts for a Delhi-based tax consultancy.
- Improved UI/UX through modern and responsive design.
- Supported website functionality using HTML/CSS.

Unified Mentor Pvt. Ltd. FEB 2026- MAY2026

Data Analyst

- Analyzed and cleaned datasets using Python and Excel to identify trends, patterns, and business insights.
- Developed interactive dashboards and visualizations to track key metrics and support data-driven decision-making.
- Prepared analytical reports and presented findings to stakeholders, translating complex data into actionable recommendations.

PROJECTS

Netflix Viewing Activity – EDA
Performed trend and pattern analysis using Python, Pandas, Matplotlib.

NOVA – Neural Organised Voice Assistant
Developed a voice-controlled assistant using speech_recognition and NLP.

Hotel Reception Management System
Built a hotel management system using Python, NumPy, Pandas.

Top 50 Songs Analysis System
Analyzed Spotify Spain Top 50 songs dataset to uncover trends in music popularity and listener preferences.

Anonymous Chatroom Application
Developed a real-time anonymous chat platform enabling users to join topic-based chatrooms and communicate using system-generated anonymous usernames.
